Please keep this Plan Summary as a brief description of the important features of the plan. It is not a contract of insurance. This plan includes both insurance and non-insurance benefits. The terms and conditions of coverage are set forth in the Plan issued to your school. For a detailed plan description, exclusions, and limitations please view the plan on file with your school. Note: This insurance is not subject to, and does not provide certain insurance benefits required by the United States’ Patient Protection and Affordable Care Act (“PPACA”). PPACA requires certain US citizens or US residents to obtain PPACA compliant health insurance, or “minimum essential coverage.” PPACA also requires certain employers to offer PPACA compliant insurance coverage to their employees. Tax penalties may be imposed on U.S. residents or citizens who do not maintain minimum essential coverage, and on certain employers who do not offer PPACA compliant insurance coverage to their employees. In some cases, certain individuals may be deemed to have minimum essential coverage under PPACA even if their insurance coverage does not provide all of the benefits required by PPACA. You should consult your attorney or tax professional to determine whether the policy meets any obligations you may have under PPACA.

Written proof of loss must be given to the Program Manager within 90 days after the date of loss or as soon as thereafter as reasonably possible. Notice should include the name of the Covered Person, the Participating School's identifying number, and the Covered Person's contact information including, address, email address, and any other necessary information that may be reasonably required. If services are rendered on consecutive days, such as for a hospital confinement, the date of loss will be considered the last date of service. In any event, proof must be given to the Program Manager within one one-year after the date of service.
